A screenshot of the "Student counseling" section of the university website. The top navigation bar includes "Quick access", "Deutsch", "Search", "Login", "About us", "Student counseling" (which is underlined), and "Teaching". On the right, there's a sidebar with the university logo and "TECHNISCHE UNIVERSITÄT DARMSTADT". The main content area features a photograph of a study room with people working at desks. A red box highlights the "FAQ", "Downloads", and "Contact" links in a sidebar. A red arrow points from a "Questions?" box on the right to the "Contact" link. The "Questions?" box contains the text: "We are happy to provide help to questions all around your study! Mehr erfahren". At the bottom, there's a "Orientation in studying" section with a "Learn more" link and three dots.

INFORMATION MASTER'S PROGRAM

GENERAL INFORMATION ABOUT THE DEPARTMENT

Standard duration for a Master's degree

- four semesters

Workload

- 120 Credit Points (CP) → 96 CP for modules & 24 CP for master thesis

Definition Credit Point (CP)

- 1 CP = 30 hours of work
 - 30 hours subdivided into:
 - 10 hours of class time (lecture, exercise, seminar etc.)
 - 15 hours of material processing, self-study, exam preparation
 - 5 hours of homework (exercise sheets, web exercises etc.)

INFORMATION MASTER'S PROGRAM

GENERAL INFORMATION ABOUT THE DEPARTMENT

Structure of a module (usually 3CP or 6CP)

- Your studies consist of numerous modules and are completed with a master's thesis

Module → completed with an exam
(technical examination, graded)

may include a study examination (usually ungraded)

INFORMATION MASTER'S PROGRAM

GENERAL INFORMATION ABOUT THE DEPARTMENT

Both technical examination and study examination are examination components.

- **Technical examination:**
 - Is a written or oral examination with grade
 - Any exam taken (even if the first attempt is not passed) must be completed and will be part of the personal examination plan
 - Special conditions apply to master's theses
- **Study examination:**
 - can be repeated until passed (no limit of attempts)
 - mostly not graded (sometimes possibility of grade bonus)
 - study examinations can be taken and passed after the technical examination but is not recommended.

STRUCTURE OF THE MASTER'S PROGRAM: CIVIL ENGINEERING

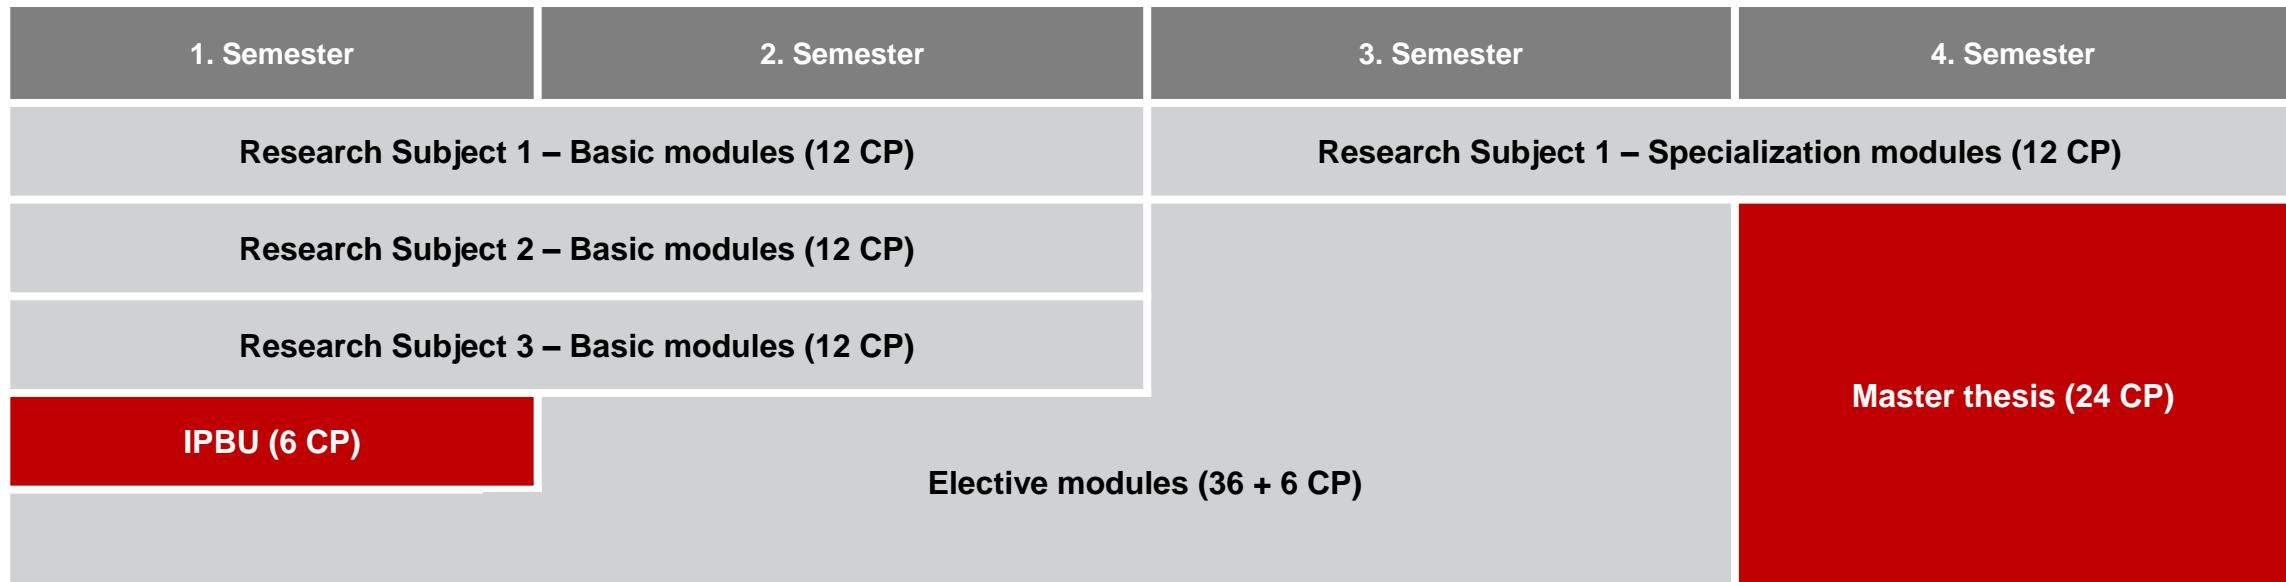

STRUCTURE M.SC. CIVIL ENGINEERING

- **Bilingual master program:** 42 CP in English, 42 CP in German, 36 CP free of choice

1. Semester	2. Semester	3. Semester	4. Semester
Research Subject 1 – Basic modules (12 CP)		Research Subject 1 – Specialization modules (12 CP)	
Research Subject 2 – Basic modules (12 CP)			
Research Subject 3 – Basic modules (12 CP)			
IPBU (6 CP)			Master thesis (24 CP)
	Elective modules (36 + 6 CP)		

STRUCTURE M.SC. CIVIL ENGINEERING

- **Mandatory subject area:** master thesis and IPBU (24 + 6 CP)

STRUCTURE M.SC. CIVIL ENGINEERING

Interdisciplinary Project Building and Environment (IPBU)

- Offered solely in the winter semester
- Interdisciplinary project
 - Working on a project by taking the role of different planning specialists
 - Participation in groups of 6 to 7 students
- Mandatory module
- Scope: 6 CP
- Official course language is German

STRUCTURE M.SC. CIVIL ENGINEERING

Master thesis

- Scientific work that must be written independently, can also be written in English
- Is recommended to be done in one of the three selected research subjects
- Normally at the end of your master program
- Duration: maximum 6 months
- Scope: 24 CP
- Independent topic selection (inform yourself at an early stage in the master program)
 - Observe the posters that are published in the institutes or online on the institutes' website
 - Contact professor or research assistant
 - A master thesis in the private sector is possible, but a supervisor at the department is still required.

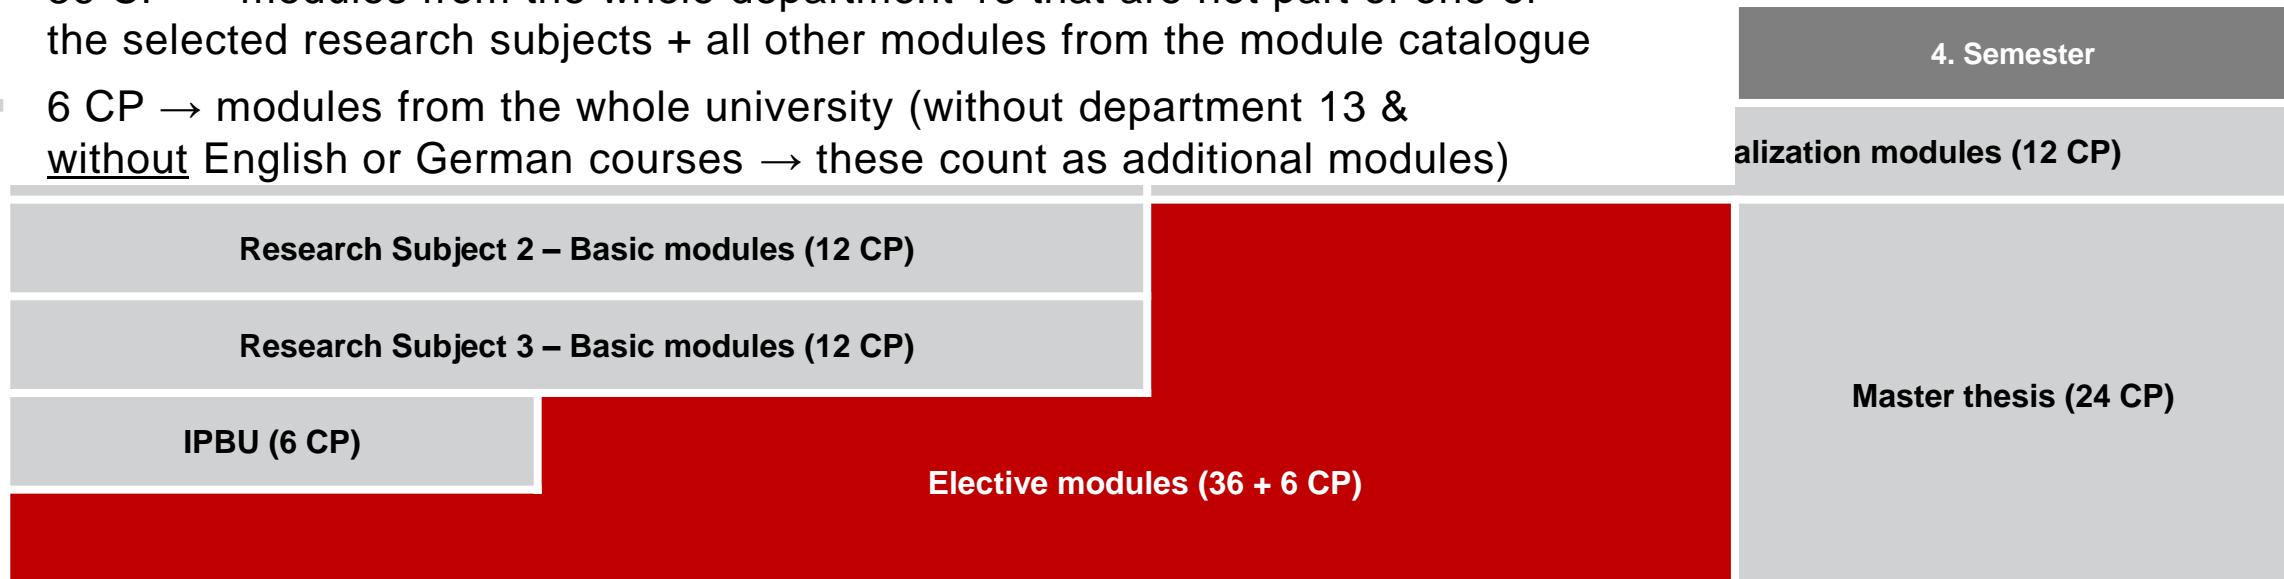

STRUCTURE M.SC. CIVIL ENGINEERING

- **Subject-related elective area (mandatory):** selected research subjects with their basic and specialization modules (48 CP)

1. Semester	2. Semester	3. Semester	4. Semester
Research Subject 1 – Basic modules (12 CP)		Research Subject 1 – Specialization modules (12 CP)	
Research Subject 2 – Basic modules (12 CP)			
Research Subject 3 – Basic modules (12 CP)			
IPBU (6 CP)			Master thesis (24 CP)
	Elective modules (36 + 6 CP)		

STRUCTURE M.SC. CIVIL ENGINEERING

- **Subject-related compulsory elective area** (Elective modules): subdivided into
 - 36 CP → modules from the whole department 13 that are not part of one of the selected research subjects + all other modules from the module catalogue
 - 6 CP → modules from the whole university (without department 13 & without English or German courses → these count as additional modules)

STRUCTURE M.SC. CIVIL ENGINEERING

Recommended Modules from the Bachelor's program

- Determined by the examination board
 - based on modules that have not been taken during your Bachelor's program, but are part of the B.Sc. Civil Engineering at TU Darmstadt
- Do not have to be taken or passed
 - however strongly recommended to be able to follow the courses of the Master's program
- Courses from the B.Sc. Are held in German
 - inform yourself if there is literature in English

STRUCTURE M.SC. CIVIL ENGINEERING

Research subjects

- Select the modules you are interested in – every combination is possible
- If you are unsure what combinations make the most sense or what modules would be best for your interests, there are several recommended job profiles listed on the website of the master's program

STRUCTURE M.SC. CIVIL ENGINEERING

Job Profile

- Decide on a job profile at the beginning of your studies (decision can be based on recommended job profiles)
- Definition of a job profile: combination of different research subjects, which consist of associated modules that cover the requirements of the professional field from a technical point of view (solely a recommendation – you are free to choose)
- Select your research subjects according to the following job profiles (see also homepage of the [Office for Student Affairs](#)):
 - *Construction Management* or Digital construction management
 - *Geotechnical design engineer* or *Geotechnical construction engineer*
 - *Structural design* or Structural hydraulic engineering
 - Traffic route construction
 - *Structural design with glass/façade planning*
 - *Structural health monitoring*

YOUR PERSONAL STUDY & EXAMINATION PLAN

GENERAL INFORMATION YOUR PERSONAL STUDY & EXAMINATION PLAN

Your personal study and examination plan ...

- ... serves to shape one's own master's degree program and must be selected via **self-registration on TUCaN** (Courses > My Elective Subjects). Registration for research modules, technical examinations and study examinations is solely possible after this selection (deadline: **April 01 until May 15, 2023**).
... defines the job profiles of your studies. Deregistration/change is possible, but not by yourself! You must apply for change of elective subjects at the Office for Student Affairs ([form](#) with different deadlines!).
 1. change: possible without giving a (written) justification
 2. change: requires a written justification and approval by the examination board

MENTOR PROGRAM

Your personal mentor ...

- ... is a professor of the Department of Civil and Environmental Engineering.
- ... is assigned to students at the beginning of their studies
(see homepage of the [Office for Student Affairs](#)).
- ... should represent one of the chosen research subjects/job profiles.
- ... has the task of supervising the students and advising them in the planning of their studies.
- ... can be changed with the appropriate [form](#).

TUCaN Systemnachrichten

Verwaltung und Lehrende informieren Studierende über TUCaN Systemnachrichten:

- Raumänderungen, Ausfall oder Verschiebung von Veranstaltungen/Prüfungen
- Aktuelle Informationen des Studienbüros/Universität...

→ Unbedingt Weiterleitung auf studentische (und private) E-Mail-Adresse einrichten!!

Die Informationsplattform **Moodle** wird gerne von Lehrenden zur Organisation von Lehrveranstaltungen genutzt. Moodle hat informellen Charakter. Nur Informationen (z.B. zu Prüfungsterminen) in TUCaN sind offiziell und rechtlich bindend.

TUCaN messages

Administration and lecturers inform students via TUCaN system messages:

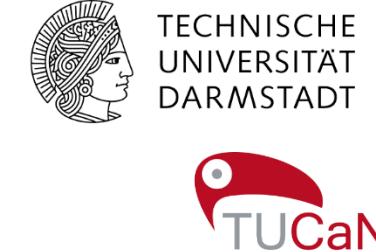

- Room changes, cancellation or postponement of events/examinations
- Current information from the Study Office/University...

→ Make sure to set up forwarding to student (and private) e-mail address!!

The information platform **Moodle** is often used by teachers to organise courses. Moodle has an informal character. Only information (e.g. on examination dates) in TUCaN is official and legally binding.

The screenshot shows the TUCaN login page. At the top, there is a green header bar with the TUCaN logo on the left and navigation links: Startseite, Vorlesungsverzeichnis (VV), TUCaN-Account, and Hilfe. On the right, there are fields for TU-ID and Password, a "Login" button, and links for English, Anmelden, and PDF. Below the header, the main content area has a yellow background. It includes a welcome message: "Herzlich willkommen bei TUCaN, dem Campus-Management-System der TU Darmstadt!". It also contains sections for "Studierende, Lehrende und deren Stellvertretungen sowie Mitarbeitende der TU Darmstadt" (with instructions to log in with TU-ID), "Bewerber_innen und Gasthörer_innen" (with instructions to create a TUCaN account), and "Promovierende zur Registrierung / Einschreibung" (with instructions to see the website). A central callout box states: "Jetzt zu Lehrveranstaltungen anmelden: Das Vorlesungsverzeichnis für das Wintersemester 2018/19 ist online!" (Announce now: The course catalog for the winter semester 2018/19 is online!). It also provides a note for first semester students about activating their TU-ID and a section on study certificates.

Prüfungsversuche in Fachprüfungen/Attempts in technical exams

- Für Fachprüfungen bestehen drei reguläre Prüfungsversuche (Studienleistungen sind unbegrenzt wiederholbar).
- Im Fall eines gescheiterten 3. Prüfungsversuches besteht einmalig im gesamten Studium die Möglichkeit einer mündlichen Ergänzungsprüfung (gilt nur für Module mit beaufsichtigten schriftlichen Prüfungen, nicht für Module, in denen Hausarbeiten die Prüfungsleistung darstellen).
- Ein Fehlversuch in einer Fachprüfung verpflichtet zum Abschluss des Moduls (ausgenommen Allgemeiner Wahlbereich)!
- There are 3 regular examination attempts for technical examinations (study examinations may be retaken unlimited times).
- In the case of a failed 3rd examination attempt once in the entire degree programme, there is the possibility of an oral supplementary examination (only applies to modules with supervised written examinations, not to modules in which homework is the examination performance).
- A failed attempt in a technical examination obliges you to complete the module (does not apply for the Interdisciplinary Elective Area)!
